EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David J. Cushing on 31 October 2007.

The application has been amended as follows:

- In claim 1, line 8 "the minimum" has been changed to -a minimum-.
- In claim 6, line 9 "the minimum" has been changed to -a minimum-.
- In claim 23, line 2 "6.*" has been changed to -6.-.

2. The following is an examiner's statement of reasons for allowance: Applicant's arguments contained in the Response filed 15 October 2007 are persuasive regarding claims 1, 3, 4, 6, 8, 10-15, 23, and 24. Simply, the aforementioned claims are allowable over Calvignac because Calvignac does not disclose a reassembly indicator incorporated into the control data without increasing the amount of control data. In addition, Applicant argues that claims 5, 16, and 18-22 are allowable over Calvignac for the same reasons as outlined for claims 1, 3, 4, 8, 10-15, 23, and 24; however, Examiner notes that claim 5 was previously indicated to be allowable and claims 16 and 18-22 were rejected under Ellis (USPN 5,497,371) rather than Calvignac. Nonetheless, Ellis teaches adding control data to the data stream by adding header information, i.e. a "reassembly indicator", to packets fragmented due to preemption (col. 3, lines 47-49). As

such, Ellis fails to disclose a reassembly indicator incorporated into the control data without increasing the amount of control data.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
